

Pueblo
GEM & MINERAL SHOW

February 1 - February 13, 2019

Pearl Pavilion

The Pearl Pavilion is a 33' x 40' structural tent that opens on three sides for highly visible exhibiting. The Pearl Pavilion is located in the most highly trafficked area of the show and well situated right across from the show's main parking area, across from the International Fine Mineral Building and the entrance into B Building and the Courtyard venues. The Pearl Pavilion has a carpeted wooden floor and sides that are opened every day by show staff. It is one of the best locations in the show.
